

MAY BURN CORN FOR FUEL.

This Year's Crop the Largest Known in the History of the Trade.

With a 2,500,000-bushel crop the West will have corn to burn, says a Chicago dispatch of September 13. According to a Kansas City dispatch, a packing-house company has already issued orders to its Wichita house to begin the use of corn for fuel as soon as it can be bought for 12 cents a bushel. On the basis of May price, with due allowance for freight and for the discount from the contract price for off grades, corn on the Western farms is not much over 10 cents a bushel.

The '95 crop of corn is practically made, and without doubt it will be a record-breaker. It is figured that the total yield of corn this year will be 2,325,000,000 bushels. It will not be far from double the quantity of corn produced in any of the star crops in the history of the trade.

The prices have become demoralized simply on anticipation. December corn touched 27½ cents last week. On the basis of the present prices corn will be cheaper than coal for fuel during this fall and winter in the States west of the Mississippi river. It is said that the experiments have shown that a ton of dry corn will go further in producing steam than a ton of coal.

Anthracite coal laid down in Kansas City even at reduced freight rates costs \$6 a ton in cart lots. At points in the interior of Kansas, Nebraska and Western Iowa it costs all the way from \$7 to \$9 a ton. At these same points corn is worth only from \$2.50 to \$4 a ton on the cob. Iowa soft coal can be delivered in Central Nebraska at about \$3.50 a ton, and Illinois coal at \$4. In Iowa native bituminous coal costs over \$2 a ton.

A prominent operator on the Board of Trade to-day offered to forfeit \$10,000 if he could not furnish the "Alley L" with corn for fuel at a less cost than that of coal.

Socialism in New Zealand.

The Hon. W. P. Reeves, Minister for Labor in the New Zealand Government, writing recently to the secretary of the Fabian Society, says:—"The latest experiment I am trying is that of a State Registry Office for female domestic servants. We are just opening it, and of course time will show whether the employers will make use of it. If they do not it must fail. We are also beginning a new method of dealing with the unemployed, combining employment on public works with tilling the soil."

The SINGER Received

54 First Awards for Sewing Machines and Embroidery Work at the World's Fair, Chicago, Ill., being the largest number of award, obtained by any Exhibitor, and more than double the number given to all other Sewing Machines.

DESCRIPTION AND TERMS:

CREOLE is the gamest, fastest and best bred stallion that has ever been imported into the Hawaiian Islands. He reduced his record of 2:20 to 2:15 in Petaluma, Cal., August 24, 1894, distancing his whole field in the first heat, then again to 2:15 in Stockton, Cal., September 23, 1894, winning the first heat in 2:15, fourth heat in 2:15, and fifth heat in 2:19, proving that he is a remarkably game as well as a speedy race horse. ("Creole" by Promoter out of Grace by Bluecocker shows that he is capable of getting a mark of 2:10 and is one of the gamest stallions seen this year, and besides being game, is one of the best formed, and remarkably intelligent. - Breeder and Sportsman, Sept. 25, 1894.) He is 15½ hands high and of powerful build throughout. His color is glossy black with one white hind foot. His disposition is all that could be desired, and his action superb. He is a sure foot getter.

Terms \$50, with usual return privilege. Will make the season at the
